Mayor Bronconnier Announces the Design-Build Award

On Oct. 29, 2009, **Calgary Mayor Dave Bronconnier** kicked off construction of the West LRT Project when he announced **SNC Lavalin** and its partners were awarded the design-build contract. The joint venture team also includes Graham Infrastructure, Cana Construction Ltd. and Enmax Power Services Corporation. Moving forward, the design-build team will begin preparing the construction sites and lay down areas over the next few months with construction beginning in early 2010.

SNC Lavalin brings a wealth of design-build experience to the project as they just completed the construction of **Vancouver's Canada Line**.

TELUS World of Science - Open For Business!

The TELUS World of Science is open for business during **building modifications and West LRT construction**. A new parking lot and vehicle access on 11th Street S.W. will take you to the temporary visitor entrance on the west side of the building.

Modifications to the south side of the building are underway and will be complete in December 2009.

For more information on the TELUS World of Science, its exhibits and hours of operation, please visit their website at calgaryscience.ca.

3D Animation - New and Improved

The 3D animation of the West LRT alignment has been updated to include a number of West LRT features. You will now see the six LRT Station and plaza designs, the new vertical alignment west of 38th Street S.W. and a new perspective on the Westbrook, 45 Street and 69 Street Stations.

The 3D animation focuses on the West LRT alignment and its general look and feel along the Bow Trail and 17th Avenue S.W. corridors. Please note the animation is for conceptual purposes only. You can check it out at the [Route Animation web page](#).

Success at the Mayor's Urban Design Awards

At the Mayor's Urban Design Award (MUDA) held on Oct. 28, 2009, the West LRT project won the award for 'Approved or Adopted Urban Design Plans'.

Sponsored by the Royal Architectural Institute of Canada, the event gives recognition to civil projects that show quality improvements to the built environment, successfully address multiple objectives and competing interests, and whose plan and implementation is supported by the community.

For more information on the award and submission, go to the [What's New web page](#).
